A photograph of an industrial facility, likely a refinery or chemical plant. In the foreground, a large metal crane is positioned on a flatbed trailer. The crane's arm extends upwards, holding a large, dark, rectangular object. In the background, several tall, cylindrical storage tanks are visible, connected by a complex network of pipes and walkways. The scene is illuminated by bright, warm light, possibly from the sun, creating a golden glow. The overall atmosphere is one of industrial activity and scale.

A photograph of an industrial facility at night, featuring several large, cylindrical stainless steel tanks or distillation columns. The structure is complex, with numerous pipes, ladders, and walkways. The scene is illuminated by bright, yellowish-white lights, creating a high-contrast, industrial atmosphere. The sky is a deep blue, suggesting twilight. The image is partially obscured by a large, semi-transparent yellow and white graphic overlay on the left side.
